Dear Manager,

When I was surfing for jobs on the internet, I noticed an advertisement for a job at your company, Hollister Co.. I am looking for a position of work that would challenge me as well as be in a place that I love.

I would want nothing more than to start off at the bottom and work my way up the chain hopefully. I've had experience working with the White Oak Trailer Park Co. for two summers doing mostly labor work such as cleaning out trailers and filling in pot-holes around the parks. Although my experience is not specifically with sales, I feel I could be an asset to your company because I am interested in this work field and love your products.

If you would like to talk to me about this in person contact me and I will meet you wherever is needed. Thank you for this opportunity.

Sincerely,

Kevin Andrews
